-Troubleshooting web application with a fast and accurate a resolution

Experience

🤝 Full Stack Engineer
Self Employed

Dec 2019 - Present (2 years 4 months +)

Full-stack Developer
Panopto
Oct 2017 - Oct 2019 (2 years 1 month)

Full Stack Engineer
Cluster Tech
Apr 2015 - Apr 2017 (2 years 1 month)

Full Stack Engineer
Torstone Technology
Jun 2013 - Feb 2015 (1 year 9 months)

Full Stack Engineer
Talenox
Apr 2012 - Mar 2013 (1 year)
• Established network specifications and analyzed workflow, access, information and security requirements

• Implemented, developed and tested installation and update of file servers, print servers and application servers in all departments

• Standardized job tasks and trained junior team members on industry best practices and standards

Education

Jilin University
Bachelor's degree, Computer Science
2008 - 2012

Skills

JavaScript • Node.js • React.js • E-commerce • Mobile Applications • Python (Programming Language) • Django • Swift (Programming Language) • Java • Objective-C
